Overview

iVMS-4200 is versatile video management software for the DVRs, NVRs, IP cameras, encoders, etc. It provides multiple functionalities, including real-time live view, video recording, remote search and playback, alarm receiving, etc., for the connected devices to meet the needs of small and medium-sized projects.

With the flexible distributed structure and easy-to-use operations, iVMS-4200 client software is widely applied to the surveillance project of financial, public security, military, telecommunications, transport, electricity, education, water conservancy industries, etc.

Main Features

Live View
- Instant playback
- Up to 64-window division for standard screen
- Custom window division configurable
- Live view in fisheye mode for fisheye camera
- Resuming the latest live view status after client restart

Recording
- Remote manual recording
- Storing alarm pictures on Storage Server
- Video file overwritten and expired video file deleting

Alarm Management
- Alarm configuration for alarm input
- Custom alarm sound as desired

Playback
- Remote playback
- Locate the playback time accurately

Network
- Encoding devices, storage servers, stream media servers connectable
- Searching the active online devices
- Adding devices which have been added to the Hik-Connect account
- For added Hik-Connect device, supporting live view, normal playback, PTZ control, two-way audio, etc.
- Two-way audio and broadcast function

General
- H.264, H.264+, H.265, and H.265+ video encoding formats
- E-map function
- Remote configuration for added devices
- User permission management

PTZ Control
- Remote PTZ control, preset, patrol, and pattern settings
- 3D positioning and wiper function

Backup
- Downloading video files to PC
- Log search and backup

Typical Application

Application for Video Surveillance

System Requirements
**Operating System**
Mac OS X 10.9 to macOS 10.12

**Client Requirements**

**Client**

**General**
- User: Support up to 50 users and one super user
- E-map: Support up to 256 maps

**Encoding Device**
- Support up to 256 encoding devices

**Group**
- Support up to 256 groups
- Support up to 64 channels for each group

**Channel**
- Support up to 1024 channels for all groups

**Storage Server**
- Support up to 16 Storage Servers

**Stream Media Server**
- Support up to 16 Stream Media Servers

**Video**

**Live View**
- Support up to 64-ch live view at a time

**Playback**
- Support up to 16-ch playback at a time

**Synchronous Playback**
- Support up to 16-ch synchronous playback
